Tales from the Trail

January 2025

Happy New Year! We are *always* looking for ways to improve our care and service. In the fall, we added an extensive in-house laboratory for same-day results on various bloodwork parameters including CBC, Chemistry, Thyroid, and Cortisol. Wellness labwork will still be sent to our reference laboratory, but we are excited to have the option of faster results for sick pets that need immediate results! Stay tuned to hear more about our increasing in-house ultrasound capabilities next month, too!

Remember George? Great news! George is a very good boy and is eating his specialty diet without objection. We took radiographs of his urinary bladder after 1 month and his bladder stones have dissolved and are gone! Way to escape surgery George! He will stay on this diet forever.

If you have a cat with urinary tract issues, please make an appointment for consultation!

Dentistry month is just around the corner! Appointments for dentistry in **February** are already going fast! Save \$100 on dental X-rays during the procedure and have peace of mind that you aren't missing disease under the gumline that could be causing your pet problems.

Have you heard of our referral program?

You and your referred friend both receive a \$10 credit!

Stock up for the new year and save big!
