LEASHES AND LOVE: A DOG WALK FOR A CAUSE!

Join PetForward Urgent Care on Sunday, February 15th at 2:00 PM at Crooked Creek Park for a fun community dog walk in support of Peanut's Place Rescue!

The route is about 1 mile, with medals for all walkers, nearby dog park access for off-leash play, and a great playground for the kids. Stop by to say hello, snag some PetForward swag, meet adoptable dogs, and enjoy a doggone good time — all while helping local pets in need!

CHOCOLATE TOXICITY CASE: WHY FAST ACTION MATTERS

We recently treated a 33-lb dog who got into about 9 ounces of dark chocolate overnight.

When she arrived, she was restless, tachycardic (had a fast heart rate), and was showing signs consistent with chocolate toxicity. Our team quickly induced vomiting, started IV fluids, and provided medication to help her settle. Thanks to fast treatment, she recovered well and went home the same day!

Chocolate (especially dark varieties) can be dangerous for pets, so please call us right away if ingestion occurs—don't "wait and see." Quick action can make all the difference!

DENTAL MONTH IS HERE!

This February, your pet can receive **more dental care for less**. During any dental procedure, we're offering **full mouth dental X-rays for just \$20** – a savings of \$100!

Dental X-rays help us detect hidden diseases beneath the gumline that may be causing your pet pain or discomfort. Don't miss this opportunity to keep your pet's smile (and overall health) in top shape!

These appointments fill fast so call soon to schedule!
